iPhone 16 and iPhone 16 Pro. Hello, Apple Intelligence.

Apple Intelligence is the personal intelligence system that helps you write, express yourself and get things done effortlessly.*

Combined with our superfast network, you'll have no trouble setting up your team for success.

Our solutions can offer your business the latest iPhone with less of the hassle. With simplified processes, flexible payments and money-back recycling offers for your old devices, we can help your people's time – and your budget – go further.

iPhone

Contents

- 3 Add-on services
- 4 Most popular iPhone models
- 5 iPhone
- 9 iPad

*Apple Intelligence will be available in beta on all iPhone 16 models, iPhone 15 Pro, and iPhone 15 Pro Max, with Siri and device language set to U.S. English, as an iOS 18 update in October 2024. UK English support available December 2024. Some features and additional languages will be coming over the course of the next year.

Add-on services

We can also lend an extra hand with services tailored to help with the estate rollout of your new iPhone and iPad:

Device enrolment

Our device enrolment services come at no additional cost, automatically connecting your device to your IT Management platform, speeding up and simplifying onboarding. We natively support Apple Device Enrolment (ADE) for all our direct business customers.

Endpoint protection

Our endpoint protection software enables your organisation to maintain continuous security across your entire mobile environment.

We provide each user 'endpoint' with protection against risky and malicious activity that ensures your employees can work securely online while keeping your business network safe.

Get more

Take out any business mobile plan and internet connection (broadband or leased lines) and we'll put 10% of the cost of your new plans into a fund to spend on the latest tech for your team.

iPhone and iPad. At our lowest prices yet.

With the UK's best network* for business at your fingertips and our best-ever deals on the latest iPhone and iPad, it's now even easier to empower your people with all the apps they need to be productive, creative and collaborative, wherever they are.

What you can expect from us

With decades of network experience between them across both fixed and mobile, our people use their knowledge and expertise to help you boost efficiency, embrace new ways of working and make your budget go further.

Trade in your tech

Get more from your upgrade and support your sustainability goals with our [Mobile Recycling Scheme](#).

You can trade in your old devices for cashback towards your next purchase, while also reducing your tech waste. We'll repair and resell your old tech to extend its life, or recycle it for parts, so as little ends up in landfill as possible.

Must always order and supply with free 5G eSIM pack (SKU 25EMBLTN, price £0)

¹ 4G Calling: UK Only = device does not support 4G calling whilst Roaming. Y = device can support 4G calling in UK and whilst roaming. Service is dependent on tariff and network support

² COOB= Charger out of the box. Devices marked with a "No" come with a USB charging lead only. No plug is provided. If required, please order separately.

5G SA: 5G comes in two different types: 5G Non-Standalone (NSA) – this is our current 5G service built on top of our 4G network. 5G Standalone (SA) – a new impressive separate network providing enhanced reliability and more advanced features over time. More info here: <https://www.o2.co.uk/5g>

EOL: End of life; no longer stocked by O2, although might still be supported by the manufacturer

Why choose Virgin Media O₂ Business?

We'll help you focus on what's important

Our service fits around your organisation to help you meet the needs of your users or customers.

We combine the power of two of the UK's leading network

Our fixed and mobile network understanding means our customer.

We can help you achieve more with digital transformation

The leading technology partnerships we have across our ecosystem enable us to deliver outcome-led solutions for the organisations we serve for today and the future. By working closely together with those in our trusted network, we can provide services and solutions that connect your business, protect your data and empower your people so you can achieve more on your digital transformation journey.
